Sunil M

Data Scientist | Analyst | Tutor | Solution Architect | People Manager
Greater Bengaluru Area

Summary

Data & Analytics professional with 19 years of experience across aerospace, HVAC, energy-utilities & Auto industry. Aspiring to lead Data & AI initiatives, drive strategy & build high-performing teams

Experience

HCLTech

9 years 11 months

Technical Specialist

October 2025 - Present (8 months)

India

- 1) Leading and scaling the offshore Data Engineering team (4 members), delivering multiple data initiatives for Volvo Group.
- 2) Driving data quality initiatives, exploratory data analysis (EDA), documentation, and end-to-end data lifecycle management for vehicle telemetry data.
- 3) Collaborating with senior leadership and product owners to implement data governance frameworks and best practices.
- 4) Managing team performance, driving upskilling & re-skilling initiatives aligned with evolving customer needs & emerging opportunities.

Senior Analytics developer

July 2022 - September 2025 (3 years 3 months)

Bangalore Urban

- 1) Responsible for generating actionable insights across various functions in United Utilities to various stakeholders.
- 2) Built prediction, machine learning, deep learning & forecasting models, situational & systems thinking dashboards using various telemetry data available in order to manage the required company operations.
Responsible for generating actionable insights across various functions in United Utilities to various stakeholders
- 3) Was responsible for United utilities to achieve a level 3 maturity in monitoring and control capability.

4) Worked on Gen AI POC's using RAG concepts to train foundational LLM's on specific use cases such as:

Project 1: YouTube script summarizer and script generator using open AI & streamlit.

Project 2: Develop chat-with-pdf's chatbot to train LLM's on pdf's using open AI & streamlit.

Project 3: Develop custom application for data analysis and viz using pandasAI.

Senior Technical Lead

July 2020 - July 2022 (2 years 1 month)

Bangalore Urban, Karnataka, India

Key Result Areas:

- 1) Implementing process improvement tools such as 5S, value stream mapping (VSM) & RRCA for project related activities
- 2) Mentoring teams on various design activities for different HVAC units
- 3) Spearheading organizational improvisation to help business to grow by conceptualizing roadmap, strategy & framework; revamping and implementing change while facilitating company transformation & digitization
- 4) Spearheading project planning & control activities involving planning & scheduling, stakeholder communication & project documentation till monitoring & control including planning, estimation & scheduling, integrating change control & contingency planning
- 5) Performing QC activities on the various design functions and drawings associated with the design and written work flow documents, standard works and best practices for work related activities
- 6) Initiated various design functions in HVAC chillers using various modules of Creo Parametric
- 7) Leading value engineering projects which helped in achieving cost savings of \$100,000 for the client
- 8) Taken part in the CMMI(Capability Maturity Model Index) level 5 multi model organization level assessment as an engineering functional area representative
- 9) Led various data science projects related to exploratory data analysis, data mining, predictive modeling & machine learning.
- 10)

Technical Lead

July 2016 - June 2020 (4 years)

Bangalore Urban, Karnataka, India

- 1) Managed the design, modeling and detailing for emerging products in the HVAC industry
- 2) Responsible for leading the various QC activities within the team
- 3) Also responsible for implementing various process improvement tools such as 5S, Value stream mapping & RRCA (relentless root cause analysis) in order to streamline various activities.

Textron India Private Limited

Senior Engineer-Design

January 2011 - July 2013 (2 years 7 months)

Bangalore Urban, Karnataka, India

- 1) Responsible for providing POC's on various design & field issues for various business jet models
- 2) The POC's that I worked helped the company save costs up to \$125,000 and increased productivity up to 20%. In addition, it helped decrease the quality notifications and save up to 89 hrs. of assembly time on the aircrafts.
- 3) Introduced written process documents for work flow processes reducing 40 hrs. of training time for each new employee joining our team.

Education

Texas McCombs School of Business

Master's degree, Data Science & Business analytics · (July 2021 - August 2022)

Great Lakes Institute of Management

Postgraduate Degree, Data science & business analytics · (June 2021 - March 2022)

Dr. Ambedkar Institute Of Technology

Bachelor of Engineering (B.E.), Mechanical Engineering · (2002 - 2006)
